

Anti-decubitus mattress and compressor kit h206_78

Anti-decubitus air bubble mattress and compressor kit. Mattress dimensions: 200 x 85 x 8 cm. Material: PVC.

Anti-decubitus kit ideal for patients in nursing homes, clinics and hospitals. Composed of an **alternating air compressor with pressure regulator** and **non-toxic PVC mattress overlay with 130 air bubbles** that inflate and deflate alternatively in a latitudinal direction by means of the specific compressor. This particular function of the mattress makes it particularly suitable also for use on articulated beds.

Technical characteristics:

Mattress overlay

- PVC material (EN-71, non-toxic, stain-resistant and weather-resistant)
- Length of extension flaps: 50 cm + 50 cm (head and foot side)
- Cold resistant -25 degrees
- Thickness 0.35 mm
- Dimensions: 200 x 85 x 8 cm
- Height of inflated cells: 8 cm
- Number of cells: 130

Compressor

- Cycle duration: 6 Mins.
- Air flow: 6-7 L/ Min.
- Pressure range: 70~ 130 mmHg
- Electric power: 220-240 Volts.
- Electric protection Class II Electric Shocks

INFORMATION

- **Type** air
