

Anti-decubitus PVC mattress h582_221

Anti-decubitus 130-bubble mattress in medical-grade PVC, 195x88x7.6 cm. Weight capacity 135 kg, ideal for pressure sore prevention and tissue oxygenation.

The **anti-decubitus bubble mattress** is a device designed specifically for the **prevention of pressure sores** and to promote proper **tissue oxygenation** in patients forced into long hospital stays. Made of high-resistance **medical PVC**, the support consists of **130 cells** that work to distribute weight optimally. The structure is designed for **easy installation** and maintenance, also allowing for the adjustment of internal pressure based on the patient's specific weight, ensuring personalized and safe support.

Technical features

- **Dimensions in use (without flaps):** L. 195 x W. 88 x H. 7.6 cm
- **Material:** Medical PVC
- **Material thickness:** 0.70 mm ($\pm 0.02\%$)
- **Inflated cell height:** 7.6 cm
- **Number of cells:** 130
- **Maximum weight capacity:** 135 kg
- **Device weight:** 2.3 kg
