

## Anti-decubitus siliconized hollow fiber mattress h30906

Siliconized hollow fiber mattress with external cover divided into 4 compartments and including 13 cylinders. Dim. cm 190X83X12 Compliant with ISO EN 12182 Standard.

The anti-decubitus mattress in **siliconized hollow fiber** guarantees the patient good distribution of support pressures and its hollow fiber padding is contained in 13 easily removable cylinders.

Specially designed to also allow complete relief of body pressure thanks to the possibility of removing one or more cylinders in the areas of the body most at risk.

Its external cover has a zipper on one side and is divided into 4 sections where the 13 cylinders are placed.

Article h30906 meets the requirements of the ISO EN 12182 Standard.
