

Anti-decubitus stretcher for animals h601_43

Anti-decubitus stretcher for veterinary practice. Fire reaction class 1. Fungistatic treatment. Dimensions: W100xD70xH40 cm.

The stretcher for veterinary use represents an ideal product for medical practices and veterinary clinics and is particularly suitable for dogs and cats undergoing surgical operations.

The stretcher is made with **micro-perforated fabric** with elastic memory that guarantees comfort for the patient.

The product is also **fire-retardant with fire reaction class 1**, while the fungistatic treatment prevents the development of fungi and bacteria.

Technical features:

- Anti-decubitus stretcher
- Micro-perforated fabric with elastic memory
- Fire reaction class 1
- Fungistatic treatment
- Dimensions: W.100 x D.70 x H.40 cm
