

Anti-fatigue bubble mat 91×152 cm h1043_36

Anti-fatigue bubble mat in high-resistance polyurethane, 910x1520x16 mm. Solid structure for dry environments, ASTM G21 antimicrobial standard, safety ramps.

The **anti-fatigue bubble mat 91×152 cm** (model h1043_36) is a superior ergonomic support, specifically designed for fixed workstations to ensure maximum comfort and high performance over the long term. Developed for a wide range of sectors, including **commercial, retail, industrial, offices, logistics and more**, this mat targets companies looking to safeguard health and increase the productivity of personnel working standing up or at height-adjustable desks. The system solves the operational problem of **musculoskeletal stress and premature wear of floor coverings**, offering excellent support thanks to its extremely resistant 100% polyurethane compound. The elegant black design integrates an anatomical bubble surface and a particularly thick outer layer that ensures optimal wear resistance. To ensure total operator safety, the mat is equipped with molded beveled ramps on all four outer sides.

Technical features

- **Geometric dimensions (LxPxH):** 91 x 152 x 1.6 cm (910 x 1520 x 16 mm)
- **Material composition:** 100% polyurethane with a thick wear-resistant outer layer
- **Surface texture type:** raised bubble surface for plantar stimulation
- **Structure configuration:** solid type (non-draining)
- **Intended use of the flooring:** anti-fatigue and ergonomic
- **Suitable operating environment:** dry environment
- **Finishing color:** black
- **Operating temperature range:** from -45 °C to +120 °C
- **Recycled material content:** less than 10% (

INFORMATION

- **Thickness** 16 mm
- **Carpet type** Pieno
