

Anti-shock tile for playground h620_09

Safety flooring in recycled rubber granules. Dimensions: 50 x 50 cm. Thickness: 40 mm.

Anti-shock tile ideal for the creation of cycle paths, rehabilitation centers, outdoor play areas. Characterized by **high absorption and impact capacity** of shocks, vibrations and noise. Guarantees maximum safety, as it is **non-slip** and capable of attenuating trauma and micro-fractures. Suitable for outdoor use, thanks to its **draining power** and high **permeability**. Ensures **protection of the underlying surfaces** and is very **easy to assemble**, through direct laying and/or gluing.

Technical features:

- Dimensions: 50 x 50 cm
- Thickness: 40 mm
- HIC value: 1.4 m
- Material: recycled rubber granules from end-of-life tires
- Fixing: direct laying and/or gluing
- Available in red or black
- Minimum purchasable quantity 8 pieces (2 sqm)
