

Antibacterial hospital cleaning trolley h422_34

Hospital cleaning trolley in antibacterial plastic with closing door and removable key.

Cleaning trolley used for waste collection and for washing and/or disinfection in hospital environments, nursing homes, clinics and medical offices, it is partially made with **PSV certified plastic components** - Second Life Plastic: the first Italian and European **environmental certification** brand that guarantees and makes goods obtained using **recycled plastics** more easily identifiable. It is a product compliant with the Minimum Environmental Criteria (CAM) in civil and healthcare environments. The pre-impregnation system before the service, with Top-Down buckets, avoids operator discretion regarding the degree of textile impregnation and guarantees efficiency in terms of water resource use and chemical consumption. According to ISO 22196:2011: this trolley has a **99.9% reduction** in Escherichia coli contamination and a 99.99% reduction in Staphylococcus aureus. **Robust carrello**, compact, ergonomic, modular, **easy to assemble and clean**. The **antibacterial** action is guaranteed for the entire life cycle of the product. Equipped with uprights that guarantee maximum hygiene because they separate the waste collection area from the rest of the trolley.

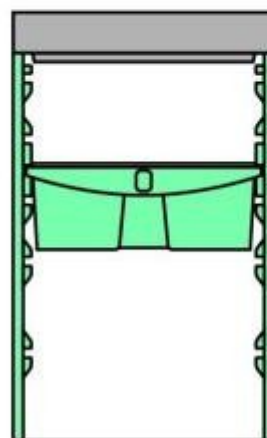

Technical characteristics:

- Material: polypropylene copolymer treated with antibacterial zinc pyrithione
- 125 mm diameter non-marking and silent rubber wheels
- 2x60 lt bag holder
- N°2 Top-Down 20 lt buckets with hermetic lid and handle in different colors
