

Antibacterial plastic cleaning trolley h422_37

Hospital cleaning trolley in antibacterial plastic, with 150 lt closed bag holder with divider

Cleaning trolley used for waste collection and for washing and/or disinfection in **hospital environments**, nursing homes, clinics and medical offices with the **“pre-impregnation”** system of cloths with **Top-Down hermetic buckets**. This impregnation system before the service is carried out, avoids the discretion of operators regarding the degree of textile impregnation and guarantees efficiency in terms of water resource use and chemical consumption. The trolley is partly made with **PSV certified plastic** components - Second Life Plastic: the first Italian and European environmental product certification brand that guarantees and makes it easier to identify goods obtained using **recycled plastics**. The **polypropylene copolymer** components are non-toxic and fully recyclable. It is an eco-sustainable trolley and is tested according to ISO 22196:2011: it has a 99.9% reduction in Escherichia coli contamination and a 99.99% reduction in Staphylococcus aureus.

Technical features:

- Material: antibacterial polypropylene copolymer
- High-quality material: lightweight, impact-resistant, resistant to frequent use and low temperatures
- Antibacterial action guaranteed for the product's entire life cycle
- Non-marking and silent rubber wheels
- Uprights that guarantee maximum hygiene because they separate the waste collection area from the rest of the trolley
- Bag holder closed on four sides for maximum hygiene and equipped with a door to allow frontal extraction of the waste bag, without having to lift it, closed on four sides for maximum hygiene and equipped with a door to allow frontal extraction of the waste bag, without having to lift it
- 2 pistons that allow for a soft closing of the lid, ensuring maximum silence
- 20 lt Top-Down® buckets with hermetic lid and handle
- Closing door of the central storage area equipped with a removable key and handle with key compartment
- 4 lt buckets with different handle colors for possible differentiation of chemicals and tools used
- Dimensions: W.120xD.66xH.112 cm
