

Archive top unit with hinged doors h796_21

Steel metal office top unit, 100x45x90 cm, with 2 hinged doors and adjustable shelf. Dustproof structure with rounded edges. The **metal top unit** is a professional storage solution designed to optimize vertical space in work environments such as offices, secretariats, banks, and technical studios. Its main function is the orderly and secure storage of operational documentation, solving surface clutter problems without taking up additional floor space. Made of **first-choice sheet steel**, the module guarantees stability and prolonged mechanical resistance.

Technical features

- Dimensions: L.100 x D.45 x h.90 cm
- Material: first-choice sheet steel painted with non-toxic epoxy powders
- Closing system: 2 hinged doors with a 45° rebate to minimize dust ingress
- Internal configuration: single compartment with 1 adjustable metal shelf with a 4 cm pitch
- Safety: rounded edges for the prevention of accidental injuries
- Standard color: white RAL 9010

Optional on request:

- Custom colors subject to quotation
