

Multi-purpose cabinet with sliding doors in stainless steel h11115

Multi-purpose cabinet with sliding doors made of Aisi 304 stainless steel with three intermediate shelves with reinforcements

Document cabinet with sliding doors made of **Aisi 304 stainless steel** with three intermediate shelves with reinforcements.

Steel, in addition to being a very robust and resistant material, also requires very little maintenance. It is an alloy of iron, carbon and other materials, but what gives it its proverbial strength is chromium.

Advantages of stainless steel

- corrosion resistance;
- greater mechanical resistance;
- easy to polish/ lower surface roughness;
- highly hygienic;
- it is an inert material that does not alter the color/taste/smell of what it contains;
- it maintains its characteristics in a wide range of temperatures, even very low ones;
- excellent external appearance
- excellent quality/price ratio due to long durability over time;
- virtually zero maintenance costs;
- eco-friendly because it is 100% recyclable.

Technical features:

- height 200 cm
- width 150 cm
- depth 50 cm
- material: AISI 304 stainless steel
- three intermediate shelves with reinforcements
- lock with key
- adjustable feet
