

Ashtray for public spaces h8652

Anti-corrosive steel ashtray for public spaces. Dimensions (mm) 650x365x986h.

Ashtray with a geometric design in **metal** suitable for city centers and public spaces. The structure is designed to accommodate an internal bag with a maximum capacity of 85 liters and features a particular design; it is indeed constructed in such a way as to be fixed in a tilted position, which serves to prevent the accumulation of ash inside the container. The interior is also complete with an internal support for easy bag attachment. The **fixing** is to the **ground** at 3 points to ensure good stability and security against possible acts of vandalism. The lid features a **grid to allow for stubbing out cigarette butts**.

Technical features:

- Material: metal
- Lid with cigarette butt extinguishing grid
- 3-point ground fixing
- Dimensions: (mm) 650x365x986h
- 20° tilt
- Capacity: 85 L
- Recyclable material
