

Automatic shoe shine machine in steel with 3 brushes h14207

Automatic shoe shine machine with foot sensor and timer. Case in coated steel. Available in different colors.

This elegant shoe shine machine with its solid coated sheet steel or brushed stainless steel version makes a perfect partner for restaurants or administrations. The reasons are manifold: the machine has an attractive height, a smoothly curved design and efficient features.

Either way the machine answers your claims as it provides the perfect finish – for your shoes as well as your ambience.
