

Automatic soap dispenser h801_06

Electronic wall-mounted dispenser in satin-finish 304 stainless steel with infrared sensor and provision for remote tank. Hygiene and durability guaranteed.

This **electronic soap dispenser** with wall-mounted installation represents an advanced technological solution for managing hygiene in professional and high-traffic environments. The **infrared cell** system allows automatic dispensing without any manual contact, drastically reducing the risk of cross-contamination. Operational flexibility allows the use of both **liquid soap and foam soap**, making it a versatile device for different supply needs.

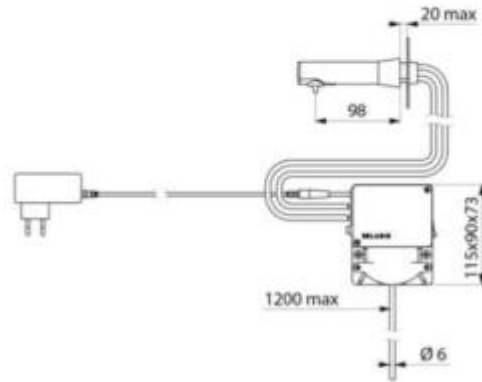

Technical features

- **Material:** AISI 304 stainless steel with a satin finish, resistant to corrosion and wear.
- **Dispensing technology:** automatic detection via infrared cell for maximum hygiene.
- **Efficiency:** integrated dosing pump with anti-waste system.
- **Power supply:** direct connection to the power grid via an included 230/6 V transformer.
- **Dimensions:** nozzle with a total length of 115 mm.
- **Configuration:** supplied with a 1.20-meter flexible hose for connection to a remote tank.
- **Warranty:** 10-year manufacturer's coverage.
