

Baby and child scale h585_14

Professional baby scale. Capacity: 20 kg. Division: 0.01 kg

Medical-grade certified baby scale, ideal for hospitals and pediatric offices. With **battery operation** allowing it to be used anywhere without the need for a power connection. Equipped with **LCD display**, **ABS weighing platform** and base with **non-slip feet**. Its structural features make it **practical, easy to handle, extremely safe and hygienic**. Complete with **differential function** for calculating weight gain after feeding and **Hold function**, which calculates and freezes a weight value by determining an average value, so the weight value can be read at leisure. It is highly recommended to also purchase the **verification (see options)**. Additionally, the following accessories are available as options: stadiometer (optional 1), foot/head rest to be fixed to the tray (optional 2), carrying bag (optional 3).
