

## Baby changing station for public bathrooms h814\_01

Wall-mounted horizontal baby changing station in polypropylene (76x18.4 cm) for public bathrooms, with accident-prevention design and hygienic anti-stagnation structure.

The **horizontal wall-mounted baby changing station** is a professional solution designed for setting up nursery areas in public and commercial contexts. The structure has been developed with a specific focus on **infant safety**, adopting ergonomic profiles that eliminate the risk of accidents during changing. The advanced design is not limited to physical protection but aims for maximum **environmental hygiene**: the shape of the surfaces prevents the stagnation of water and cleaning liquids, preventing the formation of bacterial loads and contamination.

## Technical specifications

- **Material:** high-resistance polypropylene
- **Model:** wall-mounted installation with horizontal opening
- **Hygiene:** anti-stagnation draining surfaces
- **Safety:** rounded edges and accident-prevention structure
- **Closed dimensions:** W. 76 x D. 18.4 x H. 60 cm
- **Open depth:** 64.7 cm
- **Installation:** fixing kit included in the supply
