

## Baby changing station with safety belt h1024\_02

Wall-mounted changing station in durable plastic, 10.2 cm fold-away design and Microban antibacterial technology for public and commercial restrooms.

The **h1024\_02 wall-mounted changing station** represents the professional standard for nursery area setup in high-traffic contexts. Designed to combine **rigorous hygiene** and **structural safety**, this device solves space-related issues in public restrooms, offering a wide and stable support surface for baby care.

The **high-resistance plastic** shell guarantees superior longevity even under intensive use, while the ultra-thin closed profile allows installation in corridors or restrooms without obstructing passage. The integration of **Microban®** technology ensures constant protection against bacterial proliferation, facilitating daily maintenance and sanitization operations.

## Technical features

- **Structure material:** High-resistance impact-resistant plastic
- **Surface treatment:** Integrated Microban® antibacterial technology
- **Safety system:** Adjustable restraint belt and raised perimeter edges
- **Accessories included:** 2 die-cast hooks for bags and integrated storage compartments
- **Opening mechanism:** Assisted with ergonomic handle for single-handed use
- **Closed dimensions:** W 84.5 x D 10.2 x H 54.6 cm
- **Maximum depth footprint:** 10.2 cm (resting configuration)
- **Functional equipment:** Integrated shelf for accessories
- **Regulatory compliance:** ASTM F2285 and EN 12221-1 international standards
