

## Baby changing table h13\_109

Aluminum baby changing table with padded flame-retardant eco-leather top, lower shelf and raised edges. Dimensions W115 x D63 x H85 cm. Class I medical device, Made in Italy.

The changing table is a solution designed for public spaces and restrooms in collective access premises, allowing new mothers to change their baby in safety and comfort even away from home. The **polished aluminum structure** guarantees durability and ease of cleaning, while the **padded top surface covered in flame-retardant eco-leather (Class 1 M)** ensures hygiene and protection. The **raised edges** of the top limit the risk of accidental falls, while the **lower shelf** offers a functional space for placing bags and personal items.
