

Baby scale for pediatrics h585_12

Professional baby scale. Ergonomic, safe and easy to use. Capacity: 20 kg. Division: 0.01 kg.

Baby scale perfect for use within neonatal departments and pediatric offices. Consisting of a **large ABS weighing surface**, ergonomic, safe and comfortable, and a support base which, thanks to the presence of **non-slip rubber feet**, guarantees **solidity and safety**. Equipped with **differential function** for calculating weight gain after feeding and **Hold function**, through which a weighing value is calculated and frozen by determining an average value, so that the weight value can be read at leisure. The scale is very practical and also ensures extreme hygiene, as it is very easy to clean. It is strongly recommended to also purchase the **calibration (see optional)**. Additionally, the following accessories are available as options: height rod (optional 1), foot/head rest to be fixed to the tray (optional 2), carrying bag (optional 3).

Technical features:

- Total dimensions: W60 x D40.7 x H12 cm
- Support surface dimensions: W60 x D28 x H5.5 cm
- Capacity: 20 kg
- Division: 0.01 kg
- Net weight approx: 5.5 kg
- LCD display, digit height 25 mm
- Possible battery operation 6×1.5 V AA, autonomy up to 20 h (batteries not included)
- Rigid protective cover incl. in delivery
- **Declaration of conformity with EU directives**
- **CE marking**
- Optional: class III calibration (preparation time +3 days)
- Optional 1: mechanical height rod to be fixed to the scale, measuring range 80 cm, division 1 mm
- Optional 2: foot/head rest to be fixed to the tray to ensure even greater safety when weighing small children
- Optional 3: carrying bag for mobile use, only for models without height rod

Upon request and subject to a quote, the following accessories are also available: rigid protective cover for the indicator device, 5-piece supply; pack of 80 alcohol-free wipes for disinfecting the scale; external power supply, 100-240 V, 50/60 Hz, standard EU, CH, UK
