

Baby scale h585_10

Professional baby scale. Capacity: 15 kg. Graduation: 0.005 kg. Dimensions: W60 x D36 x H14.1 cm

Baby and child scale, ideal for hospitals and pediatric clinics. With **medical approval and authorization for medical use** and for both mobile and fixed professional use in medical diagnostics. Equipped with a special **plastic weighing surface** easy to clean and disinfect and complete with raised side supports to ensure the right conditions for weighing the baby. The scale is characterized by its **compact and lightweight design** which allows it to be easily transported and stored even in small spaces. The base is equipped with **non-slip rubber feet** with adjustable height that guarantee excellent and safe support. It is very **easy to use**, plus thanks to the **Data Hold function** it offers a convenient weight reading, while the AUTO-OFF function ensures good battery saving. It is strongly recommended to also purchase the **approval (see optional)**. In addition to the approval, it is possible to add among the options, also the **mechanical height rod** to be fixed to the scale (**Optional 1**)
