

Backless bench for nursery school h681_25

Backless bench h681_25 for nursery school, made of solid FSC beech wood, with rounded edges for safety. Dim.: W 90 x D 33 x h 29 cm.

The **backless bench h681_25**, designed for children **aged between 3 and 6 years**, is ideal for **nursery schools**. Its **robust and safe structure** is made with **turned solid FSC-certified beech wood**, complying with **E1** regulations for formaldehyde emissions, thus ensuring maximum safety and environmental sustainability.

The supporting structure of the bench consists of **four solid wood rungs**, with a **diameter of 25 mm**, while the **connecting rungs** between the legs have a diameter of **18 mm**, ensuring excellent resistance and stability during daily use. The **seat** is made of **FSC beech plywood panels** in formaldehyde emission class E1, with a thickness of **8 mm**, designed to withstand frequent use in school environments.

The wood treatment follows a careful process, which includes a **first sanding**, a coat of **primer (filler)**, a second sanding and a final coat of **transparent matte varnish** of 20 gloss thickness. This treatment gives the wood a smooth and resistant finish, maintaining a natural appearance and guaranteeing **durability**.

All **edges and corners** of the bench are **rounded** with a minimum radius of 2 mm, in compliance with **current safety regulations**, preventing the risk of injury for children. The **assembly technology** involves the use of **interlocking wood dowels**, cold vinyl glue and **mounting screws**, ensuring a solid and durable structure.

The **h681_25 bench** is perfect for daily school activities, ensuring children a comfortable place to sit safely. Its simple yet functional design easily adapts to educational spaces, offering a comfortable and stimulating environment for little ones.

Make your classroom safer and more functional with the **nursery school bench h681_25**. Designed for children from 3 to 6 years old, it is perfect for daily use in schools. **Order now** and guarantee a resistant and safe product for your students!

Technical characteristics:
