

Backless bench for prevention H319_166

Pink concrete backless bench, symbol for breast cancer prevention. Dimensions: L 200 x D 50 x H 50 cm.

The **H319_166 pink bench** without a backrest represents much more than a simple piece of **urban furniture**: it is a **concrete symbol of prevention and awareness** in the fight against **breast cancer**. Made of **high-resistance concrete**, with **Class B CAM Certification**, this bench is designed to last over time and to communicate a strong, clear, and shared social message.

The **linear and clean design** fits perfectly in any public space: **parks, schools, hospitals, squares, health trails**. The **pink color**, iconic of prevention, is designed to **stimulate reflection** and strengthen attention on a theme as important as it is delicate. The **bevelled and sanded corners**, in addition to ensuring safety, contribute to a soft and inclusive aesthetic.

With the H319_166 bench, public and private entities can **actively contribute to the spread of a culture of prevention** and awareness, transforming every installation into a **tangible sign of civic commitment**.

Join the fight against breast cancer. Purchase the **H319_166 pink bench** and transform an urban space into a message of prevention and hope. Request your personalized quote now.
