

## Bag holder waste bin for restaurant kitchen h86\_107

110L waste bag support in painted steel with pedal and wheels. Hygienic HACCP-compliant structure for catering and professional contexts.

The **waste collection bag holder** is a professional solution designed to ensure the highest standards of hygiene and functionality in intensive operational contexts. Made of **recyclable painted steel**, the device offers high resistance to corrosion and mechanical stress typical of work environments. The structure is characterized by an opening system via a **wide pedal**, which eliminates the need for manual contact with the container, drastically reducing the risk of cross-contamination. Bag stability is ensured by a **perimetrical elastic belt** and a lower support surface that prevents accidental sagging or breakage due to the weight of the waste.

## Technical characteristics

- **Dimensions:** L44 x P53 x H90 cm
- **Weight:** 9.76 kg
- **Capacity:** 110 liters
- **Material:** anti-corrosive painted steel
- **Opening system:** integrated pedal mechanism
- **Mobility:** transport handle and base with 2 rear wheels and 2 front feet
- **Bag safety:** elastic fixing belt and bottom shelf
- **Compliance:** HACCP standards
- **Color:** Signal White
