

Bag holder waste bin trolley with swivel wheels h413_78

110-liter waste bin trolley in satin AISI 304 stainless steel, round base, pedal lid, swivel wheels. Ideal for HoReCa and professional kitchens.

The 110-liter bag holder waste bin trolley represents a reliable solution for waste management in professional environments with high hygiene requirements. Made of **satin AISI 304 stainless steel**, it combines structural robustness with refined aesthetics, suitable for contexts such as restaurants, hotels, professional kitchens, and healthcare facilities where corrosion resistance and hygiene are priorities.

The **round base** design ensures stability during frequent movements, while the **pedal-operated lid** allows for completely hygienic use without manual contact. The **swivel wheels** facilitate movement even in narrow environments, reducing the operator's physical effort and increasing waste collection efficiency.

Technical features

- **Dimensions:** Ø 40 x h. 90 cm
- **Capacity:** 110 liters
- **Material:** AISI 304 stainless steel
- **Finish:** satin
- **Base configuration:** round
- **Lid opening:** pedal
- **Mobility:** swivel wheels
- **Type:** bag holder trolley
