

Bain-marie food warmer 750 W h926_01

Professional bain-marie food warmer, in satin stainless steel. Dimensions: W. 215 x D. 415 x h. 200 mm. Power: 750 W. Capacity: GN 1/3 h.100/150.

The **professional bain-marie food warmer** is an excellent solution for keeping foods, sauces and other culinary preparations at the right temperature. Made of **satin stainless steel**, it offers an ideal combination of robustness and elegant design, making it perfect for use in professional kitchens and catering environments. The **temperature regulation** is simple thanks to the **thermostat**, which allows setting **up to 90°C**, and the **control light** provides a clear indication of the device's operating status. With a **power of 750 W**, the food warmer guarantees rapid and efficient heating, while the **voltage of 230 V** makes it compatible with most electrical networks. With a **weight of 3.5 kg**, this food warmer is lightweight and easily manageable, ideal for those seeking practicality and reliability in keeping food warm safely and effectively. Its **capacity is GN 1/3 h.100/150**.

Technical characteristics:

- Material: satin stainless steel
- Capacity: GN 1/3 container h.100/150
- Temperature regulation: adjustable thermostat up to 90°C, with control light to monitor operation
- Power: 750 W
- Voltage: 230 V
- Weight: 3.5 kg
- GN pans not included in the supply
