

Children's ball pit h364_88

Ball pit in expanded polyurethane (146x146x136h cm). Class 1 fire-retardant coating, antibacterial and super-washable. 500 balls included.

The **h364_88 ball pit for children** is a padded play solution designed for nurseries, playrooms, and indoor recreational spaces. Designed for educators and managers of early childhood areas, this corner structure solves the problem of daily hygienic maintenance thanks to the innovative technical coating fabric, which is tear-resistant and can be cleaned of the most stubborn stains with a simple wipe. The complete set, supplied already equipped with a base mat and 500 balls in nature-inspired colors, offers a soft environment in high-load-bearing expanded polyurethane, ensuring a safe area for psychomotor development. The use of non-toxic, antibacterial, and class 1 fire-retardant materials ensures total compliance with safety regulations for public facilities dedicated to early childhood.
