

Bariatric anti-decubitus air mattress h230_109

Bariatric anti-decubitus system with digital compressor. Dimensions: 200x120xh.25 cm

The anti-decubitus system suitable for people with high weight, consisting of a **compressor with pressure adjustment** and an air mattress with **interchangeable elements**, promotes, with the alternation of contact points with the patient's body, **blood circulation** and **good oxygenation** of the tissues, preventing the onset of pressure sores. **The compressor is equipped with a knob** that allows the pressure to be adjusted according to the patient's weight. **Compact and silent**, it can be placed on the floor or hung on the bed rail thanks to two support hooks. **The mattress is made of medical-grade PVC**, subjected to **antibacterial** treatment. It consists of **20 interchangeable elements**, which **inflate alternately**, fixed with **snap buttons**, which facilitate replacement in case of breakage and allow for cleaning. Eight central elements are provided with **low air loss micro-holes** to allow for a more comfortable and dry rest. **The mattress is completed by four elastic bands** at the corners that allow it to be anchored to the underlying mattress. It is equipped with a **CPR Valve**, used for **immediate deflation** of the mattress for urgent resuscitation interventions. The waterproof and breathable cover is equipped with a zipper that runs along the entire perimeter of the mattress. Indications: prevention of pressure sores in bariatric patients forced to bed for a long time. ISO Classification Code: **03.33.06.021 RDM:1531345**

Technical features:

- 20-element mattress
- Inflated dimensions: 200x120xh.125 cm
- Weight: approx. 9.5 kg
- Material: nylon/pvc
- Cover material: bi-elastic
- Supported weight approx. 300 kg
- Digital compressor
- Power: 110V/60Hz
- Air flow: 12-13 liters per minute
- Pressure: 20mmHg - 65 mmHg
- Alternating cycle 10/15/20/25 minutes
- Consumption

INFORMATION

- **Depth** 25 cm
- **Width** 120 cm
- **length** 200 cm
- **Type** air
