

Basket stretcher h655_07

Basket stretcher for patient transport. Material: high-quality ABS plastic. Dimensions: L218 x W59 x H20 cm.

Rescue basket stretcher, ideal for use by personnel trained in the rescue and recovery of injured persons located in confined spaces. Made of a very compact **ABS plastic** structure with aluminum tubing, which ensures excellent resistance to impact, corrosion, chemicals and extreme temperatures. Equipped with a 40 mm thick **mattress**, with velcro attachment, so it can be easily removed for disinfection and cleaning operations. Complete with **adjustable footrest** with velcro attachment and grip handles along the entire perimeter. Included in the supply are also **3 safety belts** to keep the patient steady.

Technical features:

- Dimensions: L218 x W59 x H20 cm
- Capacity: 300 kg
- Material: ABS and aluminum
- Mattress thickness 40 mm
- Adjustable footrest
- Grip handles
- 3 safety belts
- Color: orange
