

Bed restraint belt h983_06

Adjustable restraint belt with 14 cm high soft bodice, strap with eyelets for bed attachment and adjustable circumference from 70 to 120 cm. Color: cream. Adjustable waistband circumference: from 70 to 120 cm.

The **H983_06 restraint belt** is designed to **limit trunk movements** in a **controlled and safe** manner, maintaining the patient's comfort. Suitable for use in **hospitals, clinics, and healthcare facilities**, it allows for **prone or lateral decubitus** and ensures **fair mobility** of the torso without compromising safety.

Made of **100% cotton**, it features a **14 cm high soft bodice** with **internal MTP padding** (external polyamide velvet and internal ether-based polyurethane), offering **softness and breathability**.

Fixing to the bed is achieved through an **adjustable strap with eyelets**, while the closure is reinforced by **Nickel/Brass alloy eyelets**, guaranteeing **excellent resistance to prolonged use**.

The **adjustable waistband circumference** ranges from **70 to 120 cm**, allowing for **wide adaptability to different body types**.

To be used exclusively by **specialized healthcare personnel**.

For **advanced protection**, it is possible to purchase **safety buttons and the magnetic key separately**, which prevent unauthorized opening. The system can **only be unlocked via the dedicated key**.

Buy the **H983_06 restraint belt** now to ensure stability and safety in healthcare settings! Request a personalized quote immediately.
