

Bedside overbed table with foldable top h919_51

Overbed table h919_51 with adjustable height (780–1200 mm) and downward foldable top. Made of steel and polystyrene with wheels. Dim: 695×470 mm.

The **Bedside overbed table with foldable top h919_51** is a professional structure specifically designed to facilitate the serving of meals and the performance of daily activities for bedridden patients or people with motor difficulties. This aid resolves the operational criticality of managing space around the hospital bed and the difficulty of accessing traditional support surfaces, providing an adjustable and easily storable surface after use. Designed for healthcare operators, care staff, and care facilities, the table consists of a base in epoxy powder-coated steel tube and a polystyrene (PS) top measuring 600 × 400 mm. The base (680 × 470 mm) integrates 4 wheels of Ø 50 mm, 2 of which with brakes, to ensure maneuverability and safe positioning. The height of the top is manually adjustable from a minimum of 780 mm to a maximum of 1200 mm, while the support surface has the particularity of being able to be folded downwards to optimize space. The plastic top is equipped with an edge for liquid containment, tolerates a maximum temperature of 70 °C and guarantees a maximum capacity of 12 kg with the load positioned in the center. The total dimensions are 695 × 470 × (780–1200) mm for a weight of 8.5 kg, with production guaranteed by a manufacturer certified according to NP EN ISO 9001 and NP EN ISO 13485 standards.

Technical characteristics

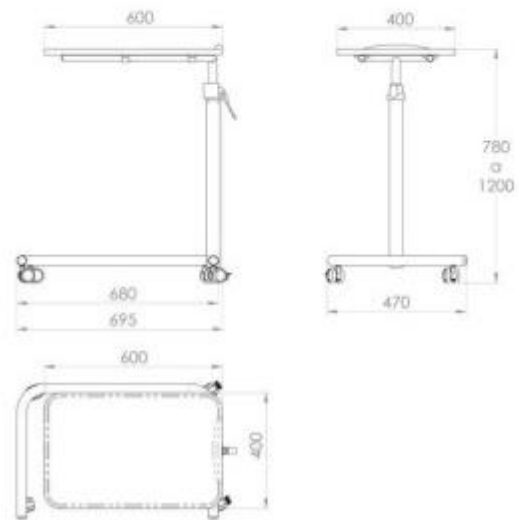

- **Base material:** Epoxy powder-coated steel tube
- **Top material:** Polystyrene (PS)
- **Overall dimensions:** 695 × 470 × (780–1200) mm
- **Base dimensions:** 680 × 470 mm
- **Top dimensions:** 600 × 400 mm
- **Height adjustment:** Manual, from 780 mm (min.) to 1200 mm (max.)
- **Foldable function:** Downward foldable top
- **Maximum top capacity:** 12 kg (with load positioned in the center)
- **Thermal resistance of the top:** Maximum supported temperature up to 70 °C
- **Top features:** Plastic top with liquid containment edge
- **Mobility system:** 4 wheels Ø 50 mm, 2 of which with brakes
- **Weight:** 8.5 kg
- **Manufacturer certifications:** Quality management system compliant with NP EN ISO 9001 and NP EN ISO 13485
