

Beech wood chair for preschool h848_26

Nursery school chair h848_26 in beech wood (3x31x58(32)h cm). Resistant structure for teaching and educational spaces.

The **Beech wood chair for preschool h848_26** is a seating solution for children with a wooden frame, designed for furnishing classrooms, laboratories, and educational spaces. This product meets the operational need to equip school and educational environments with stable, durable furniture elements proportioned to children's height during daily activities. Targeted at preschools, nurseries, playrooms, children's centers, and school facility managers, the chair features a FAD beech wood structure that ensures solidity and high mechanical strength in daily use. The item has dimensions of 3 cm in width, 31 cm in depth, and a height of 58 cm with a seat height of 32 cm (3x31x58(32) h cm), offering calibrated support for setting up workstations and school tables.
