

Beech wood school chair h908_37

Height-adjustable school chair with steel structure and beech seat. Double structural reinforcement, dimensions 32x32 cm, sizes 2-3.

Professional chair designed specifically for the furnishing of educational institutions and training environments. The structure is designed to respond to the stresses typical of intensive use in the classroom, integrating a **height adjustment system** that allows the seat to be adapted to the different growth stages of the students. The combination of the metal frame and natural wood elements ensures ergonomic and long-lasting support.

Technical features

- **Frame material:** High-resistance 4-leg steel tube
- **Seat and backrest material:** Multilayer beech wood
- **Adjustment:** Integrated height variation system
- **Reference sizes:** Standard 2-3
- **Overall dimensions:** W. 32 x D. 32 cm
