

Belt stanchion post h43866

Black powder-coated steel belt barrier. Red belt with automatic rewind. Belt length: 2 meters.

Thanks to this very useful crowd control stanchion, you will be able to better organize lines and create order within the environment. In fact, these products are mainly used in check-in areas or customer service counters. This product consists of a circular base, a pole and a red belt, with automatic rewind. The pole starts from the center of the base and extends in height with a circumference of **63mm**, it is entirely made of black powder-coated steel. At the top of the post there is a self-braking reel and a connector made of thermoplastic material necessary for anchoring a belt. The belt, **2 meters** long, is made of red Nylon and polyester. The assembled set has a metallic finish that gives it adequate resistance against atmospheric changes and frequent use.

An automatic soap/gel dispenser support can be applied to the belt stanchion (see optional).

Technical characteristics:

- Belt length: 2 m
- Structure: steel
- Post finish: black
- Post dimensions: 900mmX300mm
- Weight: 6.5 Kg
- Automatic rewind

Optional:

- Automatic soap/gel dispenser with support - Battery operated - Capacity 0.9 l.
