

Bench for public spaces h140_518

Bench with a modern and sinuous design, ideal for public spaces, parks, and pedestrian areas. Made with a galvanized steel structure and okumè wood seat, it is equipped with an integrated USB socket for charging mobile devices. Dimensions: W 225 x D 140 x H 42 cm.

This **3-module public space bench H140_518** combines an elegant and curvilinear design with a solid and resistant structure, making it perfect for the urban furniture of **squares, parks, shopping malls, and waiting areas**. Its **fluid lines and wide seat** offer a high level of comfort, while the high-quality materials guarantee **durability and weather resistance**.

The **structure** is made of **laser-cut galvanized sheet metal (2 mm thickness)**, a material highly resistant to corrosion. The interior is reinforced with a **frame made of galvanized sheet metal profiles**, which ensures **solidity and stability**. The bench is also equipped with **adjustable feet**, which allow for optimal installation even on surfaces that are not perfectly level.

The **seat** consists of **okumè wood slats (40x20 mm section)**, fixed on shaped frames that guarantee **resistance and a pleasant user experience**. The wood is treated to withstand the elements, making the bench ideal for outdoor installations.

For an even more functional experience, the bench includes **an integrated USB socket**, positioned on the side and protected by a **closing flap**. This solution makes it perfect for modern urban environments, offering users the possibility to **recharge smartphones and tablets** while they relax. The entire electrical system is housed in a protected internal compartment, ensuring **safety and efficiency**.

Thanks to **advanced anti-corrosion treatments**, including **hot-dip galvanizing, sandblasting, and powder coating**, the bench is designed to **maintain its aesthetic and structural characteristics over time**, even in adverse weather conditions.

The **3-module urban furniture bench H140_518** is a perfect complement to improve the livability of public spaces with a touch of design and innovation. Contact us now for a personalized quote!

Technical features:

- **Structure:** 2 mm galvanized sheet metal, laser cut
- **Fixing:** to the ground using anchor bolts and expansion plugs
- **Seat:** okumè wood slats 40x20 mm
- **Adjustable feet:** for greater stability on different surfaces
- **Integrated USB socket:** with protective flap
- **Structure finish:** painted in different colors
- **Anti-corrosion treatments:** hot-dip galvanizing, sandblasting, powder coating
- **Weight:** 106 kg
- **Certifications:** ISO 9001:2015, UNI EN ISO 3834-3:2021
- **Dimensions:** W 225 x D 140 x H 42 cm

User benefits:

- **Innovative and fluid design:** which adapts to any urban context.
- **Robust and resistant structure:** suitable for intensive use in public spaces.
- **Comfortable bench:** with natural okumè wood seat.

- **Integrated USB socket:** for charging mobile devices.
- **Easy installation and low maintenance:** thanks to treated materials.
- **Weather resistance:** thanks to galvanizing and protective treatments.

FAQ:

1. Where can this bench be installed?

It is perfect for parks, squares, shopping malls, waiting areas, and any public space.

2. Is the seat wood treated to resist the elements?

Yes, the okumè wood slats are treated to ensure durability and resistance to weather agents.

3. How is it fixed to the ground?

The bench is designed to be fixed with anchor bolts and expansion plugs, ensuring maximum stability.

4. Is the installation of the USB socket safe?

Yes, the USB socket is protected by a closing flap, while the electrical system is housed in a protected internal compartment.

5. Is it available in different colors?

Yes, the bench is available in various colors to adapt to different urban contexts.

Mini buying guide:

When choosing a **bench for public spaces**, it is important to evaluate some key aspects.

The **material** is fundamental to guarantee resistance and durability over time. The combination of **galvanized steel and okumè wood** ensures excellent protection against weather and wear.

Functionality is another essential element: the presence of **an integrated USB socket** makes this bench perfect for modern environments, offering users the possibility to recharge their devices while they relax.

For a **long-lasting** product, it is essential that the bench is treated with **hot-dip galvanizing and powder coating**, guaranteeing **resistance to corrosion and atmospheric agents**.

Finally, **regular maintenance of the wood** helps preserve its beauty and functionality. Periodic application of **specific protective oils** is recommended to prolong its life.

Thanks to its **resistance, innovative design, and comfort**, this bench is a perfect solution to improve the experience in public places, offering **a welcoming seat and a charging point for mobile devices**.

Bench for public spaces, modern urban bench, steel and wood bench, bench with USB socket, resistant bench for urban furniture, innovative design bench.
