

Bench for public spaces h450_29

Bench with backrest for public spaces. Material: concrete. Available in different finishes.

The **bench for public spaces h450_29** is a monoblock seat with backrest designed for urban furniture and the enhancement of green areas. Made of **concrete treated with an anti-degradation finish**, this solution solves the problem of rapid wear and vandalism in open spaces, guaranteeing superior resistance to atmospheric agents and intense loads. The rectangular design, supported by two solid side supports, is aimed at public administrations, residential area designers, and hospitality facility managers looking for a durable and functional furniture element for gardens and villas.

Technical specifications
