

Bench for public spaces h86_263

Bench for urban furniture in powder-coated steel, with anti-corrosion treatment. Dimensions: W 180 x D 60 x H 80.6 cm.

The **bench for public spaces h86_263** is an elegant, robust, and resistant solution for furnishing urban areas, parks, squares, public gardens, or outdoor corporate spaces. Made of **powder-coated steel**, this bench is designed to guarantee **exceptional corrosion resistance** and long durability, even in difficult weather conditions.

The structure consists of **10 mm thick steel legs**, which ensure optimal stability, and a **perforated steel seat and backrest** with a thickness of 3 mm. This design not only provides a modern appearance but also promotes **water drainage**, making the bench ideal for outdoor environments.

The bench is supplied **unassembled**, but it is designed for **quick and easy assembly** thanks to high-quality components and an intuitive design. Once installed, it can be **fixed to the ground**, offering greater safety and stability in public environments.

Thanks to its **robustness** and anti-corrosion coating, the h86_263 bench is a reliable urban furnishing accessory, perfect for withstanding daily wear and atmospheric agents. The **Green RAL 6005** color integrates harmoniously into natural and urban contexts, making it an excellent choice for enhancing any outdoor space.

Give a touch of elegance and functionality to your public spaces with the **urban bench h86_263**! Easy to install, resistant, and with a modern design, it is the ideal solution for any outdoor area. Order now and make your space welcoming and durable!
