

Bench for public spaces with concrete bases. h287_100

Urban furniture bench with multifunctional central space, concrete bases, backrest and armrests. Dimensions: cm 200 x 65 x 81 h

Urban furniture bench. Perfect for public spaces such as parks, school exteriors, shopping centers, sports centers. Composed of 4 supports in sheet steel 60/10 thick shaped with laser technology. Horizontal bar in galvanized steel tube Ø mm. 60X30/10 thick and 2 **sandblasted white concrete bases** treated with anti-degradation treatment. **Seat and backrest** composed overall of profiles in galvanized round steel tube Ø mm. 20x15/10 closed at the ends by black PE hemispherical caps. In the center of the bench, a **space** is provided only with a backrest, extremely useful for **strollers** or **wheelchairs**. Bench equipped with **armrests**. The galvanized steel parts first undergo a **degreasing pre-treatment process for impurities** through steam solutions, then dried and subjected to painting operations using electrostatic guns that cover the pieces with powder paint in a floury state. Subsequently, the product is subjected to polymerization in an oven, a process that allows the powder to solidify by baking at a temperature of 180/200° C in a hot air circulation oven. The pieces coming out of the oven are cooled naturally. The **powders** used in the painting process are **non-toxic** according to current regulations. Dimensions: cm 200 x 65 x 81 h. Bench built according to **UNI 11306:2009** safety requirements.
