

Bench for public use h975_14

Backless bench with galvanized steel structure and oven-baked polyester powder coating, weather-resistant. Available in various colors. Dimensions: W 175 × D 40 × H 45 cm.

The **H975_14 public use bench** is designed to offer **durability, practicality, and functional design** in public and private spaces. Thanks to its **solid structure and high-quality materials**, it represents an ideal solution for **parks, squares, schools, rest areas, and high-traffic urban spaces**.

Made with **8 mm galvanized plate legs** and a **2.5 mm galvanized sheet metal seat**, this bench guarantees **high resistance to impact, corrosion, and weather**. Galvanization protects the surface from rust, while the **oven-baked polyester powder coating** ensures a long-lasting finish, preventing deterioration due to prolonged exposure to sun and humidity.

The **backless design** makes it a versatile solution, perfect for high-traffic areas, allowing users to **sit from both sides**. Its **minimalist and modern design** adapts harmoniously to any urban or natural context, ensuring **functionality without sacrificing aesthetics**.

Available in **various colors**, the **H975_14 bench** can be customized to perfectly fit the style of the surrounding environment. It is also **prepared for floor anchoring**, ensuring greater stability and safety, especially in busy public areas.

Thanks to the **ease of installation and reduced maintenance**, this bench represents **an economical and durable solution** for those seeking resistant urban furniture with a refined design.

Choose the quality and durability of the **H975_14 bench**! Perfect for public spaces, urban furniture, and rest areas. Buy now or request a personalized quote.
