

Colored urban furniture bench h14010

Modern and colorful urban furniture bench ideal for schools, parks and municipal gardens. Italian production.

Bench with an innovative design ideal for furnishing **public spaces dedicated to children**. The use of bright colors such as red and orange, together with the idea of designing the seat supports with a cute stylized smiling little man, has characterized this bench, attracting the curiosity of many of our customers.

In addition to the **colors**, the **friendly shapes** and the addition of small smile faces carved into the supports, the bench features an **anatomical** and **comfortable** seat. Made to ensure **children's safety**, **rounded shapes** have been used, thus with an absence of sharp edges. The advantage of placing this bench in playgrounds or in gardens and parks is to obtain comfort while breaking the monotony.

Structure:

- n° 02 supports consisting of a silhouette depicting a stylized little man in 80 / 10 thick galvanized steel sheet; each individual support is equipped with plates, at the base, in galvanized sheet metal;
- anatomically shaped seat-backrest shell, made of 20 / 10 thick galvanized sheet metal with motifs harmonized with the supports. The shell is equipped with holes for fixing to the supports.

Anti-corrosion treatments and finish:

- **Pre-treatment:** before being painted, the product is pre-treated by spray washing with special degreasing liquids. After washing, the product to be painted is dried for 15 minutes in a dryer.
- **Anti-corrosion treatment:** in order to provide suitable protection against atmospheric agents, the product is subjected to a first painting cycle using a thermosetting anti-corrosive powder primer based on epoxy resins with special pigments.
- **First baking (anti-corrosive):** the product treated with the anti-corrosive primer is subjected to a first baking in the oven lasting 15 minutes at a temperature of 180°. In this phase, the anti-corrosive polymerizes, forming a coating thickness of approximately 60 microns.
- **Painting:** the product is subjected to a final painting cycle with thermosetting powder based on polyester resins. Painting is performed with electrostatic spray equipment, which allows the powder to be deposited uniformly on the pieces, forming a minimum thickness of 60 microns.
- **Final baking:** the painted product is subjected to a final baking in the oven lasting 20 minutes at a temperature of 160°. Bench color Red RAL 3002 and feet in orange RAL 2004

Fixing:

- the supports are equipped with plates with holes for anchoring to the ground by means of anchor bolts and expansion plugs;
- the bench is supplied in an assembly kit, stainless steel hardware and assembly instructions.

Dimensions:

- height 77 cm
- seat height 42 cm
- length 150 cm
- depth 65 cm
- Weight: 44 Kg
