

Bench for urban furniture h287_343

Bench for urban furniture in galvanized tubular steel. Ground level anchoring.

Bench for public spaces with a **simple design** ideal for furnishing squares, courtyards, avenues, paths and parks. **The structure** is composed of 2 supports in **galvanized tubular steel** and ground anchoring plates in laser-shaped sheet metal 60/10 thick in the shape of a **“duck foot”**. The seat and the backrest are made of oval steel tube slats, section 40 x 20 x 1.5 mm. **The item** features a structure composed of **steel** parts that first undergo a pre-treatment degreasing process of impurities through steam solutions, subsequently dried and subjected to painting operations using **electrostatic guns** that coat the pieces with **powder paint** in a powdery state. Subsequently, the product is subjected to **polymerization** in an oven at a temperature of 180/200°. The pieces coming out of the oven are cooled naturally . The bench is available in different colors.

Technical features:

- Material: steel
- Dimensions: D. 45 x W. 150 x H. 30 cm
- Anchoring: ground level
- Available in different colors
- Anchoring plates in the shape of “duck feet”
