

Bench for urban furniture h350_325

Backless bench in Nordic pine. Dimensions: 190 x 52 x 45h cm. Fall height: 45 cm.

The backless bench in Nordic pine is ideal for paths and parks immersed in nature but also for gardens and urban areas. The bench features a structure with two hot-dip galvanized "U" profile supports. The seat is composed of three Nordic pine planks pressure-treated in an autoclave with non-toxic salts, sec. 110 x 45 mm, fixed with galvanized steel bolts. The bench is made using techniques aimed at respecting the environment and human health, thanks to the use of non-toxic substances.

Technical Features:

- Material: Nordic pine and galvanized steel bolts
- Backless
- Dimensions: 190 x 52 x 45h cm
- Anchoring: ground level
