

Modern urban furniture bench h14009

Modern urban furniture bench ideal for schools, parks and condominium courtyards. Italian Production.

Public space bench with a modern design and bright colors; ideal for schools, parks, municipal gardens and playrooms. The orange color communicates **creativity** and **attraction**; in addition to the color, the element that characterizes it is the specially constructed supports depicting the silhouette of a small lion, the same small lion shown with plasma cutting on the backrest to give continuity to the theme. **Soft shapes** were intentionally chosen to give the bench a light appearance as it is designed for a young audience. A seat with a **comfortable backrest** and aesthetic beauty complete this product for placement in outdoor environments such as gardens or playgrounds.

Structure:

- n° 02 supports consisting of a silhouette depicting a stylized lion in 80 / 10 thick galvanized steel sheet; each individual support is provided with a plate, at the base, in galvanized sheet metal;
- anatomically shaped seat-backrest shell, made of 20 / 10 thick galvanized sheet metal with patterns harmonized with the supports. The shell is equipped with holes for fixing to the supports.

Anti-corrosion treatments and finishing:

- **Pre-treatment:** before being painted, the product is pre-treated by spray washing with special degreasing liquids. After washing, the product to be painted is dried for 15 minutes in a dryer.
- **Anti-corrosion treatment:** in order to provide suitable protection against atmospheric agents, the product is subjected to a first painting cycle using a thermosetting powder anti-corrosive primer based on epoxy resins with special pigments.
- **First baking (anti-corrosive):** the product treated with the anti-corrosive primer is subjected to a first oven baking lasting 15 minutes at a temperature of 180°. In this phase, the anti-corrosive polymerizes, forming a coating thickness of approximately 60 microns.
- **Painting:** the product is subjected to a final painting cycle with thermosetting powder based on polyester resins. Painting is performed with electrostatic spray equipment, which allows the powder to be deposited uniformly on the pieces, forming a minimum thickness of 60 microns.
- **Final baking:** the painted product is subjected to a final oven baking lasting 20 minutes at a temperature of 160°.

Fixing:

- the supports are equipped with plates provided with holes for anchoring to the ground by means of anchor bolts and expansion plugs;
- the bench is supplied in an assembly kit, with stainless steel screws and assembly instructions.

Dimensions:

- height 77 cm
- available widths 150 and 200 cm with respective weights of 47 and 55 kg
- depth 66 cm

- Height 77 cm
- Depth 66 cm
- Strengths per bambini
- Depth in millimetres 660.000000
- Width in millimetres 1500.000000
- Height in millimetres 770.000000
- Material metallo
