

Bench with anthracite structure for squares h109_367

Bench in pine wood and anthracite painted steel. Dimensions: W 183 x D 48 x H 45 cm.

The **H109_367 urban furniture bench** is a functional, solid and aesthetically modern solution, designed for **permanent installation in outdoor and indoor environments**. Ideal for **squares, public parks, pedestrian areas, hospitality and commercial facilities**, it stands out for its **linear and contemporary design**, with an **anthracite** finish that enhances the surrounding space.

The **supporting structure** is made with **two sturdy side frames** in **galvanized steel sheet, bent and perforated** for ground fixing via expansion bolts. In the upper part, steel **“U” supports** are welded to receive the seat.

The **seat consists of pine wood slats**, fixed at the bottom to two “U” profiles using **stainless steel screws**, which guarantee **stability, durability and resistance to atmospheric agents**. Pine wood is treated for outdoor use, offering an excellent balance between natural aesthetics and durability.

All **metal parts** undergo **protective galvanization** and subsequent **painting with thermosetting polyester powders** in **anthracite** color, for **superior protection against corrosion, humidity and wear**.

The H109_367 bench combines **functionality and robustness**, with **minimal maintenance** and an architectural style perfect for contemporary urban contexts.

Order the **H109_367 urban bench** now or request a personalized quote for public projects or multiple supplies. Ideal for public bodies and outdoor space designers.

Technical features:

- **Type:** Backless bench
- **Structure:** Galvanized and anthracite painted steel sheet
- **Seat slats:** Treated pine wood
- **Slat support:** Steel “U” profiles
- **Fixing:** To be bolted to the ground (pre-drilled holes)
- **Hardware:** Stainless steel
- **Finish:** Thermosetting polyester powder coating
- **Structure color:** Anthracite
- **Intended use:** Outdoor and indoor – squares, parks, public areas
- **Total dimensions:** W 183 x D 48 x H 45 mm

User benefits:

- **Resistant and vandal-proof structure** thanks to galvanized steel.
- **Modern aesthetics** with anthracite finish for contemporary urban environments.
- **Treated pine wood seat**, natural and durable.
- **Secure ground fixing** with preparation for bolts.
- **Low maintenance** and long-lasting durability.

FAQ:

1. **Is the bench suitable for outdoors?**

Yes, it is designed for permanent outdoor use, with anti-corrosion treatments and wood suitable for outdoor use.

2. **Is the anthracite color resistant over time?**

Yes, thanks to the thermosetting powder coating, the color remains stable and protected from atmospheric agents.

3. **Is it possible to anchor it to the ground?**

Yes, the structure is perforated for ground bolting, ensuring maximum stability.

4. **What type of wood is used?**

Treated pine wood slats, resistant and suitable for outdoor urban use.

5. **Is it already assembled?**

No, it is supplied disassembled, but it is easy to assemble with the existing preparation and hardware included.

Mini buying guide:

Backless benches like the H109_367 model are perfect for installations on **sidewalks, pedestrian zones and public paths** thanks to their **compact shape** and the possibility of **using the seat from both sides**.

To ensure **durability and resistance**, it is important to choose models made of **painted galvanized steel** and **treated wood**, as in this case.

The design with **exposed slats and metal structure** integrates perfectly into modern contexts.

Recommended for urban and landscape projects where **functionality, aesthetics and resistance** are essential.

Anthracite backless urban bench, pine wood and painted steel bench, outdoor bench for square, modern design ground fixing bench, urban furniture metal wood benches.
