

Bench with planters for public spaces h31931

Bench for furnishing public spaces. Made of concrete and equipped with two side planters. Total dimensions: 310x60xh.65 cm. CAM product.

Bench ideal for completing the urban furniture of parks, municipal gardens, streets and squares, as well as perfect for being placed outside shopping centers, apartment buildings and various types of buildings.

The product is designed as a furnishing solution capable of offering a wide and stylish seat.

The bench with a perforated seat is anchored by bolts between **2 square-shaped planters** that beautify and complete the bench.

The product is made of **concrete** and is structured with rounded and sanded corners to avoid sharp edges, which could prove harmful to the community.

The possibility of choosing between **different finishes** makes the bench versatile for every furnishing need.
