

Bench with planters for urban furniture h45008

Bench with square-shaped lateral planters, ideal for urban furniture. Dimensions: W.2460 x D.380 x H.460 mm.

The bench is an essential item to complete the furniture of public parks, gardens, squares, and city avenues.

The product therefore represents a fundamental element of a city's architecture, helping to make urban spaces livable.

The **bench** consists of **square-shaped lateral planters** with dimensions of 43 x 43 x h.50 cm, supported by **two feet**, which also create the support base for the seat.

The product is made of reinforced, vibrated, and sandblasted **concrete**, treated with **anti-degradation** coating that makes the bench durable over time.

The possibility of choosing between **different finishes** makes the bench perfect for being placed in various urban contexts.

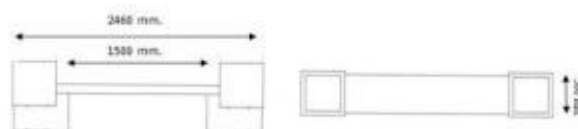

Technical features:

- Bench with planters
- Type: without backrest
