

Bicycle barrier with waste bins h28739

Bicycle barrier with 2 waste bins in shaped galvanized steel sheet. Bin capacity: 27 lt. Dimensions mm 2560x200x1090h. Made in Italy

Bicycle rack with waste bins, practical and functional, ideal for placement near historic centers, squares and apartment buildings.

Structure composed of **galvanized round steel tube** uprights with **decorative spheres** and **anchor plates in steel sheet** shaped using laser technologies. Rails made of galvanized round steel tube with bars **vertically welded** at a distance of approximately 13 cm from each other. Waste collection bins made of **shaped galvanized steel sheet** with patterns arranged in two rows; while, the bottom features holes for rainwater drainage. Emptying the bins is done by releasing them with the provided Allen key.

The structure is equipped with special perforated plates to facilitate anchoring to the ground using expansion bolts (excluded from the supply).

In order to preserve and guarantee the solidity of the structure over time, the steel parts are galvanized and powder-coated.

Technical features:

- Dimensions: mm 2560 x 200 x 1090 (W x D x h)
- Structure: in galvanized round steel tube
- Bins in shaped steel sheet th. 10/10
- Fixing: to be bolted to the ground
- Bin capacity: approximately 27 liters each
- Bin dimensions: Ø 28 x h.42 cm
- Dimensions: W.256 x D.20 x h.109 cm
- Stainless steel bolts
- **Italian Product**

INFORMATION

- **Material** Steel
- **strengths** bi-facciali, con fioriere o cestini, fisse
- **Typology** al suolo
- **length** 2560 mm
- **fixing** tessellation

Bicycle barrier with waste bins h28739

Material: Steel

Typology: al suolo

Length: 2560 mm

Fixing: da tassellare
