

Bicycle rack 2 x 3 bikes h463_09

Double rack for 6 bicycles (2 x 3 spaces), made of UV-resistant powder-coated steel. Height 530 mm, plate-mounted. Dimensions: W 164.5 x D 61 x H 53 cm.

The **H463_09** bicycle rack is designed for urban furniture, offering a solid, tidy, and efficient solution for bicycle parking in high-traffic public or private spaces. The model is equipped with **double-sided access** and allows for the simultaneous positioning of **6 bicycles** (3 per side), ideal for optimizing space usage in areas such as schools, public offices, sports centers, stations, corporate parking lots, and hospitality facilities.

Made of **anti-corrosion treated steel** and subsequently **powder-coated with a UV-resistant finish**, it guarantees high **resistance to atmospheric agents** and long-term durability, even in adverse weather conditions. The **54 mm spacing between the loops** makes the rack suitable for all bicycle models, including those with wide tires.

Fixing is to be carried out using **plates with 6 anchoring points**, for greater stability and safety during use. The **fixing kit is not included**, but it is easily available on the market. Assembly is simple and immediate: simply anchor the structure to a flat and stable surface. The rack is available in **different colors upon request**, to adapt perfectly to the style of the environment where it is installed.

A **functional, robust, and durable** solution, designed for those looking for **quality and practicality** in the context of urban furniture and sustainable mobility.

- **Installation:** simple and fast via plate-mounted fixing.
- **Availability:** of customized colors to integrate into the urban furniture.

FAQ:

1. **Is the fixing kit included with the product?**

No, the fixing kit is not included but can be purchased separately from specialized retailers.

2. **How many bicycles can the H463_09 rack hold?**

Up to 6 bicycles, 3 on each side thanks to the double-sided access structure.

3. **Is it suitable for outdoor use?**

Sì, the structure is treated against corrosion and painted with a UV-resistant finish, perfect for outdoor environments.

4. **Does it require assembly or does it arrive ready to use?**

The rack is supplied assembled; it is sufficient to fix it to the ground using expansion bolts.

5. **Can I request colors other than the standard one?**

Sì, various colors are available.

Mini buying guide:

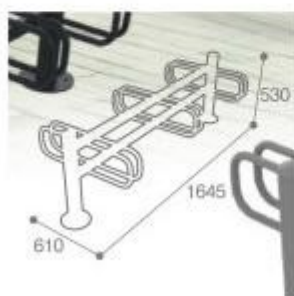

If you are looking for a rack to install in public, condominium, or corporate spaces, first consider the **required capacity** based on the expected flow. Models such as the H463_09 are perfect for installations where it is necessary to optimize space thanks to the **double-sided access**. It is also important to check the type of fixing: plate-mounted fixing with expansion bolts ensures **solidity and durability over time**. Finally, evaluate the materials: painted and anti-corrosion treated steel is the safest choice for outdoor installations. For a coordinated aesthetic touch with the environment, choose customized colors available on request.
