

Bicycle rack for public spaces h337_33

Galvanized and anthracite gray painted bicycle rack, ideal for urban furniture. Sturdy tubular steel structure, treated against corrosion. Dimensions: L 247 × D 56 × H 34 cm.

The **bicycle rack for public spaces H337_33** is a practical and resistant solution for parking bicycles in urban and private areas. Made of **tubular steel Ø 8 cm/D 2 cm** with **galvanizing and powder coating** treatment, it guarantees excellent protection against corrosion and atmospheric agents, ensuring long life over time.

The linear and compact design fits perfectly in schools, parks, offices, shopping centers, and residential areas. Thanks to its modular system, multiple racks can be placed side by side to create customized and functional parking spaces. The product is supplied with all the hardware necessary for assembly, facilitating installation on flat and stable surfaces.

Made in Italy, synonymous with quality and attention to detail, this rack meets the highest standards both in the choice of materials and in the production process. It does not require special maintenance, except in conditions of exposure to high pollution or marine environments. All materials are separable and recyclable, contributing to environmental sustainability.

Don't wait! Buy the H337_33 rack now or contact us for a personalized quote. Transform your urban space with a reliable and aesthetically pleasing solution.
