

Bicycle rack for public spaces h337_38

Galvanized and anthracite gray powder-coated steel bike rack, ideal for public and urban spaces. Dimensions: W 319 × D 55 × H 38 cm. Weight: 200 kg.

This **H337_38 bicycle rack** represents a robust and durable solution for urban furniture and public spaces. It has been designed to offer convenient parking for multiple bicycles, ensuring order and practicality in places like parks, squares, schools, and rest areas. The structure is made of **D.8 cm tubular steel** treated with **silver galvanization** and a **powder coating** that guarantees strong resistance to atmospheric agents, rust, and corrosion over time.

The linear and modern design fits perfectly into urban contexts, integrating with the surrounding environment. The **concrete bases** offer excellent stability without the need for permanent anchoring to the ground, making the rack easy to install or move, if necessary. The supply includes **galvanized screws** for quick and secure assembly, with protective packaging in plastic material to preserve the structure during transport and storage.

Thanks to its solid construction, this rack not only offers a practical solution for cyclists, but also contributes to keeping public spaces tidy, reducing the risk of disorderly parking.

Best organize bicycle parking in public spaces with this **H337_38 public space rack**. Order now or contact us for a personalized quote!

Technical features:

- **Material used:** D.8 cm / D.2 cm tubular steel
- **Treatments:** Galvanization + anthracite gray powder coating
- **Accessories:** Galvanized screws
- **Packaging:** Simple with plastic material (nylon-bubble wrap)
- **Dimensions:** W 319 cm × D 55 cm × H 38 cm
- **Weight:** 200 kg

User benefits:

- **Robustness and stability:** guaranteed by the concrete bases and the galvanized steel structure.
- **Resistance to atmospheric agents:** thanks to the powder coating and galvanization.
- **Versatile and functional design:** perfect for public and urban spaces.
- **Easy installation:** does not require permanent fixing to the ground.
- **Low maintenance impact:** does not require extraordinary maintenance interventions.

FAQ:

1. **How many bikes can this rack accommodate?**
It depends on the size of the bicycles, but on average it can accommodate up to 9 bikes.
2. **Is it rust-resistant?**
Yes, thanks to galvanization and powder coating.
3. **Does it require maintenance?**
It does not require routine maintenance if positioned in non-corrosive environments.
4. **Is it suitable for saline environments?**
No, it is not recommended for areas with salty air or heavy atmospheric pollution.
5. **Is the product made in Italy?**
Yes, the product is 100 % Made in Italy.

Mini buying guide:

When choosing a bicycle rack, it is important to evaluate its **resistance to atmospheric agents** and the stability of the structure.

Galvanized steel racks with **powder coating**, like this model, are perfect for outdoor use due to their durability. If you are

planning an installation in high-traffic areas, consider a model with **concrete bases** for greater stability.
