

Bicycle rack for urban furniture h33722

Spiral bike rack for public spaces, in galvanized steel with 5 spaces. Dimensions cm L. 200 x D. 45 x H. 32.

The **spiral bike rack for public spaces** is ideal for schools, parks, stations and sports complexes.

This bike rack consists of **two sheet metal bases** equipped at the base with plates for ground support and on which the **5-space spiral tube rack** is installed.

To make the structure resistant to atmospheric agents and wear, the entire **structure** is made of **galvanized and anthracite gray painted steel**.

Technical features:

- Dimensions: L. 200 x D. 45 x H. 32 cm
- Material: galvanized steel
- Weight: 40 Kg
- Finish: Anthracite Gray
- Spaces: n.5

The h33722 rack is also available on the MEPA portal. Discover how to find our company on the [Public Administration portal](#).
