

Bicycle rack in galvanized and painted steel h109_358

Arch bike rack in galvanized and painted steel. To be bolted down. Dimensions: L. 728 x h. 800 mm.

Single bike rack with an **arch design**, made of **galvanized steel and painted with thermosetting polyester powders in various RAL colors**, to be chosen during the ordering phase. In arch-shaped tubular, equipped with **plates with three holes** for fixing to the ground using expansion bolts (not included). The bike rack features, in the center, a **decorative element in laser-cut shaped sheet metal** which, at the same time, acts as a **hitching point for the bicycle** to the frame via chain and padlock. **To be bolted down**. Ideal for installation in parks, seafronts, outside stations, shopping centers, commercial activities, and sports centers.

Technical features:

- Dimensions: L. 728 x h. 800 mm
- Base plate diameter: 120 mm
- Construction material: galvanized and thermosetting polyester powder-coated steel
- Fixing: to be bolted down

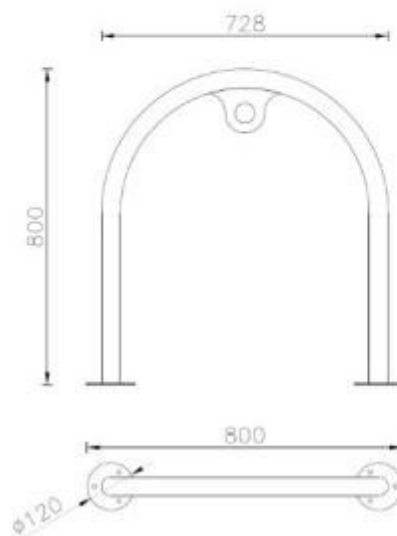

**Images purely indicative.*

**When ordering, specify the desired RAL color among anthracite, corten, grey RAL 7016, grey RAL 9006, red RAL 3000, green RAL 6005.*
